What Is an Affiliate Program?

Here's how to join an affiliate program:

There is no fixed amount of money that an Amazon affiliate makes. The commission you earned depends on three categories:

Clicks

The profile page is where you'll provide an identification that you'll use for your affiliate links. You need to create an Associates ID; this tells Amazon and their merchants where to send the commissions. You can use the name of your website for your ID to link the referrals to you easily.

You'll also be asked how you build your links - blog editor, HTML editor, content management system, manual via a text editor, etc.

Affiliate Links Must Not Be Placed in Emails

I work with companies that sell products on platforms such as Amazon, Shopify, Walmart, Ebay, Etsy, etc. I understand that every business is unique and that's why I form genuine relationships with owners so I can help them reach their goals and find success through our working capital solutions.
