Baccarat History - Learn About One of The Oldest Card Games

Baccarat's history is said to go all the way back to medieval Italy.

This original version of baccarat was not played the same way it is today.

Cards were dealt by four dealers, each player could be the banker, and players

could place bets against fellow players and against the house.

In today's game there is one dealer, bets are typically placed against the

house, and the house also fills in the banker role.

As more time passed, baccarat cropped up in South America and in the Caribbean,

where under the name of Punto Banco, it adapted to the local culture.

This kind of baccarat is what we now know as "American Baccarat."

Baccarat may have not caught on with the public the same way games like real mo

ney roulette and blackjack have, but it still enjoys an air of exclusivity and p

restige with many casino goers.
